# HP Latex 630/630W P&C

Low Volume Printer

Maximize your versatility with this full-feature, 1.63-m (64-in) HP Latex printer

Latex Printers

Up to  
**1.63 m**  
(64-in) roll width

8-in touchscreen

Print & Cut Option

High Opacity White ink

## Specifications

Up to 35 m<sup>2</sup>/hr

Up to 1200x1200 dpi

Latex Inks **4th** Gen 832

CMYKLcLmO  
**8 x 1000ml**  
& 1 x White

## Media

### Finished output handling:

Roll feed  
take-up reel  
automatic cutter (for vinyl, paper-based media, backlit polyester film)

### Media types:

Banners, self-adhesive vinyls, films, papers, wallcoverings, canvas, synthetics, (fabrics, mesh, textiles and any other porous materials require a liner)

### Media specifications:

Max width : 1625 mm  
Roll maximum weight: 42 kg  
Roll external diameter: 250 mm  
Media thickness: Up to 19.7 mm

Grow with high-value jobs and sharpen your sustainability edge with HP Latex Technology.

- Media thickness: Up to 50 mm

## APPLIKATOR 3000

### The Kala specificity

Since the introduction of the AppliKator on the market, KALA has set itself apart by being the first manufacturer to use electric motors to control the elevation and pressure of the roller.

This choice of electric motors, instead of pneumatic ones, brings many advantages, which go beyond the simple elimination of a compressor and its inconvenience.

Specifications – 170cm x 311cm

## APPLIKATOR GRANDÉ

Specifications – 170cm x 205cm  
Expandable by 238cm sections.

## APPLIKATOR MODULAR

Specifications – 205cm x 443cm  
Expandable by 238cm sections.

## iEcho VK Series

High Speed Cutter of the new generation.

Up to  
**1.7m**  
Cutting Width

Up to 1.5mm thick

## Specifications

Available sizes:

**BK4-1312 - 1300x 1200**

**BK4-1316 - 1300x 1600**

**BK4-1516 - 1500x 1600**

**BK4-2516 - 2500x 1600**

Up to 1.8m/s

Up to 900 kg

The new fourth-generation machine BK4 high-speed digital cutting system, for single layer (few layers) cutting, can work automatically and accurately process like through cut, kiss cut, milling, v groove, creasing, marking, etc. It can be widely used in the industries of automotive interior, advertising, apparel, furniture and composite, etc. BK4 cutting system, with its high precision, flexibility and high efficiency, provides auto-mated cutting solutions to variety of industries.

## iEcho BK4 Series

High Speed Cutter of the new generation.

Flatbed Cutters

Up to  
**2.5m**  
Cutting Length

Up to 50 mm thick

## Specifications

Up to 10 tools

Up to 1.8m/s

Up to 900 kg

Available sizes:

- BK4-1312 - 1300**x 1200
- BK4-1316 - 1300**x 1600
- BK4-1516 - 1500**x 1600
- BK4-2516 - 2500**x 1600

The new fourth-generation machine BK4 high-speed digital cutting system, for single layer (few layers) cutting, can work automatically and accurately process like through cut, kiss cut, milling, v groove, creasing, marking, etc. It can be widely used in the industries of automotive interior, advertising, apparel, furniture and composite, etc. BK4 cutting system, with its high precision, flexibility and high efficiency, provides auto-mated cutting solutions to variety of industries.

# iEcho TK4S Series

High Speed Cutter of the new generation.

Flatbed Cutters

Up to  
**5.5m**  
Cutting Length

  
Up to 50 mm thick

## Specifications

Up to 10 tools

Up to 1.5m/s

Up to 900 kg

Available sizes:

- TK4S-2516** - 1600 x 2500
- TK4S-3516** - 1600 x 3500
- TK4S-5516** - 1600 x 5500
- TK4S-2521** - 2100 x 2500
- TK4S-3521** - 2100 x 3500
- TK4S-5521** - 2100 x 5500
- TK4S-2532** - 3200 x 2500
- TK4S-3532** - 3200 x 3500
- TK4S-5532** - 3200 x 5500

TK4S Large format cutting system provides best choice for multi-industries automatic processing, Its system can be precisely used for full cutting, half cutting, engraving, creasing, grooving and marking. Meanwhile, precise cutting performance could meet your large format requirement. User-friendly operating system will show you a perfect processing result.

# iEcho SKII Series

High Speed Cutter of the new generation.

Flatbed Cutters

Up to  
**3.5m**  
Cutting Length

Up to 50 mm thick

## Specifications

Up to 10 tools

Up to 2.0 m/s

Up to 1050 to 1550 kg

Available sizes:

**SK II - 2516 - 1600 x 2500**

**SK II - 3516 - 1600 x 3500**

**SK II - 3532 - 3200 x 3500**

Accuracy improvement	Acceleration	Noise reduction	Efficiency enhancement	High-speed response
The linear transmission system reduces the transmission error caused by the mechanical mechanism, thereby greatly improving the cutting accuracy of the equipment.	The high-speed response of the direct drive shortens the acceleration and deceleration process, thereby increasing the overall cutting speed, and the speed can reach 2 m/s.	The guide rail uses a magnetic pad to suspend the guide rail (without mechanical contact), which greatly reduces the noise of the equipment when it is moving.	There are no other links in the transmission process, which reduces the energy loss of mechanical friction.	The new drive mode greatly improves the dynamic response performance of all closed-loop control systems, and the response speed is extremely fast and sensitive.

# ARISTOMAT TL

High Speed Cutter of the new generation.

Flatbed Cutters

Up to  
**75 in**  
(1900mm) width

Automatic Eye

Up to 46 mm thick
